

The Dragonfly

We are proud to present the Dragonfly tattoo machine. Designed with the tattoo artist in focus and manufactured with the highest quality materials and components available. The Dragonfly is a state of the art rotary based tattoo machine with features that gives it several advantages compared to other tattoo machines.

The adjustable suspension system allows the needles hitting force to be adjusted, the low noise, the light weight, the needlebar retainer and the ability to accept standard grips, tubes, needles and power supplies with RCA or clipcord are some of the features and improvements incorporated in to the design without compromising the function or ergonomics.

All of these things and more put together in one package makes the Dragonfly the most complete tattoo machine ever made.
